Public Sector Equality Duty

Public Sector Equality Duty

The Equality Act 2010 requires us to publish information that demonstrates that we have due regard for the need to:

- Eliminate unlawful discrimination, harassment, victimization and any other conduct prohibited by the Equality Act 2010
- Advance equality of opportunity between people who share a protected characteristic and people who do not share it
- Foster good relations between people who share a protected characteristic and people who do not share it

Our Skylark Federation vision is based on this premise. We believe that the Equality Act provides a framework to support our commitment to value diversity, tackle race discrimination, promote equality and foster good relationships between people. We are committed to ensuring equality of education and opportunity for all pupils, staff, parents and carers, irrespective of race, gender, disability, belief, religion or socio-economic background.

It also ensures that we continue to tackle issues of disadvantage and underachievement of different groups.

Our approach to equality is based on the following key principles:

1. All learners are valued equally
2. We recognize and respect difference
3. We foster positive attitudes and relationships, and a shared sense of cohesion and belonging
4. We observe good equalities practice in staff recruitment, retention and development
5. We aim to reduce and remove inequalities and barriers that already exist
6. We have the highest expectations of all of our children
