Please Note

*DfE Regional - These figures are based on the DfE regions. The South East figures in these reports are provisional and unpublished indicators of regional benchmarks, not official DfE data, being based on the aggregation of local authorities' data collected directly from the Primary Assessment Gateway. These regional results become more robust as more data is loaded by LAs, so are subject to change at this early stage.

**NCER National - These figures are provisional and unpublished indicators of national benchmarks, not official DfE National data, being based on the aggregation of all local authorities' data collected directly from the Primary Assessment Gateway. NCER National results become more robust as more data is loaded by LAs, so are subject to change at this early stage. NCER National results have been a reliable, robust source of early data for LAs and schools when compared to DfE National data for many years.

***2023 Progress data - 2023 progress analysis in these reports are available in advance of the publication of KS1–2 progress data from the DfE. The DfE progress methodology for 2023 is not available until later in the year, so early Perspective Lite statistics use DfE 2022 methodology, which will give an early picture of progress for your school but should be used with caution at this early stage. Progress scores may also fluctuate at this early stage as data is still being loaded in by local authorities. Full details of KS1-2 progress methodology used can be found here https://ncer.zendesk.com/hc/en-gb/articles/360044583072-KS1-KS2-Progress-Methodology

Source: NCER Nexus. 2023 KS2 data in these reports are based on data received by the DfE from the Primary Assessment Gateway, downloaded on 8th August 2023. The NCER South East Regional data is based on (108,500 pupils, 100% of cohort based on January 2023 school census figures) and East Sussex (5,787 pupils, 100% of cohort).
